

Hello Domingo,

Thank you for the opportunity to speak with you and the board of directors. It fuels my drive to serve as your commissioner when I see the passion people have about our great city.

Middle River Terrace has been overlooked when it comes to the development of our city. It is a family-oriented community with a unique identity, distinct from the high rises and heavy density of downtown.

In my opinion, there are two major projects that will have a major impact the future of the community: Dixie Highway and 13th Street. As your commissioner, I will make sure every resident will have a chance to influence the way these projects develop. We do not want to create a safety issue of people cutting through the neighborhoods to avoid congestion.

I also strongly believe businesses in the area should reflect the diversity and family nature of our community. It is time Middle River Terrace is recognized as a community with a clear vision for its future; one that will not stand by and allow that vision to be compromised.

Together, we can make this happen. I ask for your vote—and those of your neighbors and friends, Tuesday March 10th.
