
NEIGHBORS:

The message to follow was published by the Middle River Terrace Neighborhood Association in a newsletter prior to the initial distribution of the SmartWater. At the bottom is contact information where you can receive the free product.

MIDDLE RIVER TERRACE NEIGHBORHOOD ASSOCIATION IS PROUD TO INTRODUCE: SMARTWATER CSI

SmartWater kit contains a uniquely coded bottle of forensic solution that irrefutably links valuables to their owner and deterrent warning labels. You will also benefit from all the ongoing work that keeps the threat of SmartWater at the forefront of criminals' minds.

Each kit contains his own uniquely coded bottle of forensic solution that gives irrefutable traceability to your valuables. SmartWater CSI states that the non-hazardous, robust liquid is virtually impossible to remove and leaves a long-lasting identifying forensic marking. This marking is known to remain present on a person or property for up to a minimum of five (5) Years and is only visible to the naked eyes with the use of an ultraviolet black light. It's impossible to remove it.

- Every bottle of SmartWater contains a unique forensic 'code', which links property to an address
- It is simple to apply, cannot easily be seen under natural light and is almost impossible to remove
- It glows under UV black light – allowing police to take a sample to identify the true owner of the property and establish whether it has been stolen
- Can be used to mark everything from electrical goods and jewelry to air-conditioning units and exterior metals.

If you were not able to attend one of the distributions of the SmartWater product and would like to receive the **free product (for Middle River Terrace Residents only) - contact:**

Detective Sean Reddish, Fort Lauderdale PD

[954-828-5676](tel:954-828-5676)

or e-mail: seanre@fortlauderdale.gov

with your address and contact information.

Also, ask him about a sign to put in your yard. It is a front line defense that helps prevent an actual burglary before it happens.
